RENGARAJ

Back-End/UI Developer   **3.1 yrs**

TECHNICAL EXPERIENCE AND SKILLS

Project Portfolio – Back-end and UI developer for a recipe share application(plateDate) – 0.6 yrs(Freelance)
Technology – **Java**,**ReactJS , Redux MySQL .**

- Incorporated authentication for plateDate Application
- Added Elastic search to search recipes based on different criteria
- Integrated third party APIs like Yummly to dynamically fetch ingredients and cookwares so that user need not manually add them
- Worked on time based notifications and image upload and thereby used AWS to store and retrieve images on the cloud
- Added User Profile to add user details and make sure a user's bookmarks are added as collections
- Also worked on UI for authentication,recipe collection add and recipe removal using React.
- Used redux as a state management tool to handle operations on multiple handlers.

ReactJS Developer – Sans paeril IT Service Limited - 1 yr
Technology – React , Redux

- **Project Portfolio –** Worked as a UI developer on a dynamic budget computation application using React and Redux.

- Incorporated features that include computation of a firm's overall budgets based on assets and liabilities scale.
- Used redux as a state management tool to handle operations on multiple handlers.
- Also added other enhanced features as suggested by the client.

Java Developer – Hewlett Packard Enterprise - 1 .5yr
- Worked as a Java Developer.

Technology : Java,J2EE,MYSQL

Project Portfolio -

- OCA (One Config Advance) allows you to create configurations for various purposes: specials, big deals, customer catalogs, and regional SKUs. You can create new configurations and update existing ones which you can then print, email, or export. Existing configurations can be searched using criteria such as Config id, product family, configuration name, configuration description, or user id. Within minutes you can select your configuration components and calculate list and end user prices.

Roles and Responsibilities:
Functional Studies
Technical / System specification documents (High level design)
Coding
